

## RADIO BUTTONS AND CHECK BOXES: PIZZA DEMO PROGRAM

Create the following **Pizza Demo** application:

The image shows two screenshots of a Windows application titled "Pizza Demo". Both screenshots feature a red background and the "Hot & Fresh PIZZA PIZZA" logo at the top. The left screenshot shows the "Select a pizza size" section with three radio buttons: "Small" (selected), "Medium", and "Large". Below this is the "Toppings" section with six checkboxes: "Pepperoni", "Mushrooms", "Green Peppers", "Bacon", "Onions", and "Pineapple", all of which are unchecked. At the bottom, the "TOTAL:" label is followed by an empty text box, and there are "CLEAR" and "EXIT" buttons. The right screenshot shows the "Select a pizza size" section with "Medium" selected. In the "Toppings" section, "Pepperoni", "Green Peppers", and "Bacon" are checked, while "Mushrooms", "Onions", and "Pineapple" are unchecked. The "TOTAL:" label is followed by a text box containing "\$8.99". The "CLEAR" and "EXIT" buttons are also present.

When the user clicks on one of the pizza sizes, the cost of the pizza should be outputted in a label. The pizza prices are as follows:

SMALL	\$6.99
MEDIUM	\$8.99
LARGE	\$10.99

When the user clicks the CLEAR button, all the radio buttons and check boxes should be deselected and the label that outputs the pizza cost should be cleared.

When the user clicks the EXIT button, the application should end.

Save the program as **Pizza Demo** in your UNIT 2 folder.
