

## **Create Your Degree**

Building on our experiences looking at George Brown College and Kings University College and their academic calendars, you are going to create an education plan for yourself.

You are going to follow the Kings University College History and Political Science module handouts (which are actually used to help students at the university plan their degree structures) to plot out your career paths as History and Political Science students at Kings.

Be sure to read through both module handouts, as they will give you the exact information that you need to fill them out properly and completely.

You are to decide what degree structure you will complete – but remember that you must have a MAJOR and a MINOR. You can choose to do either the Honors Specialization or just the Major, but you will also need to combine it with a minor.

Write all of your courses, which can be found in the package that you now all have, in the appropriate slot and be sure that you meet all of the requirements listed on the handout.

This counts as part of your THINKING AND INQUIRY category and will be marked out of ten (10).
