

Culminating Assignment Brainstorming

In your group, brainstorm several issues that you feel are currently things that need to be dealt with in the city of Toronto. You can also focus specifically on your own neighbourhood in which you live, the surrounding areas, or the city as a whole. Try to be somewhat specific with the issues (writing Hunger is too vague and general). Write down these issues on the front page, and when instructed to do so, flip the page over.

Now that you have come up with a number of issues that are impacting your community, create your own TOP 5 list of those issues that YOU feel are most important to your community.

What issues did your group members come up with?

Now, looking at the issues on the other page, the issues that you feel are most important to the community and which issues your group members feel are important, write down the TOP 3 issues that you really CARE about and have a PASSION to see changed. Rank these issues in order from the one you care MOST about, then second most, and third most.

Once you are finished, you must now write a ONE PAGE journal-style entry about what we have looked at today. Be sure to discuss the issues that you looked at, what issues you really care about, and why you care about these issues. This will be due on: _____.
