

Literacy and Numeracy Assignment

Task One

Using a hardcopy article from a newspaper or magazine that contains numerical information, summarize the article; you will create a graph and a summary. The graph will visually demonstrate the numerical information in the article.

Your tasks will be as follows:

1. From magazines or newspapers, find an article that contains numerical information.
2. Create a graph that is appropriate for the information you found. Submit the article with your graph.
3. Create a paragraph that summarizes the article, and make sure to use the following

Hyphen -
Quotation Marks“ “
Colon :
bold
italics

Task Two

1. Write a paragraph about *any* subject using proper grammar.
2. Submit a photo along with the paragraph that helps to illustrate the meaning of the subject matter that you are talking about. You must give a reason to include the picture OTHER than the fact that it is a picture of your subject.
